Career Summary

An innovative Frontend Developer with a strong passion for crafting solutions that address challenges and deliver exceptional user experiences. Proficient in HTML, CSS, Bootstrap, JavaScript, and React, with a knack for creative problem-solving. I excel both independently and collaboratively within a team. My diverse background spans Customer Service, Project Management, and UI/UX Design, contributing to a well-rounded skill set.

EXPERIENCE

FREELANCE FRONTEND DEVELOPER
Self-employed | Lagos, Nigeria | January 2023 - Present

- Independently conceptualized, designed, and developed multiple web projects, demonstrating proficiency in HTML, CSS, Bootstrap, JavaScript, and React.
- Utilized creative problem-solving skills to address client requirements and deliver tailor-made solutions.
- Ensured seamless user experiences through effective UI/UX design principles.
- Collaborated with clients to understand their needs, provided technical support, and delivered timely project updates.

Davsoft Concepts, Frontend Engineer Intern   *Dec 2020 – October 2022*

- Collaborated within the ReactJS and AngularJS ecosystem, receiving mentorship from a senior developer.
- Contributed to the development and maintenance of the startup's web application.
- Provided user support and troubleshooting, enhancing product reliability.
- Collaborated with product team to gather requirements, designing interfaces to meet needs.
- Optimized code and images to improve web application load time.
- Developed a mobile-responsive version of the web app, resulting in increased mobile traffic.
